

LIGHT UP
DESIGN

*Live
the UP
Lifestyle*

Let us welcome
you to our latest
collection
of

luminaire, lamps, and accessories which we have carefully selected and hope you will enjoy looking, reading, and selecting. From our beginning in 2009, Light Up Design has always put emphasis on giving customer the best service and quality products from all over the world. We are always on the look for any new products with technological advances and breakthrough design

to include in our catalogue. We pride ourselves in giving the very best support to customers from drawing up lighting plan to installation. Serving all scales of customers from few pieces of luminaire to world class projects, we are proud to have grown from a small company to holding on to family style customer oriented company with goals in exceeding customer's expectations.

DETAIL 3

DETAIL 3

Due to the limitation of Bookshelf size, the linear led (we try to select the color of led to match xenon light color) to be proposed for this shelf

DETAIL 2

Linear light to be attached on the wooden beam

To provide the soft light at Wood Partition at entrance

Light is all around us... with appropriate and proper lighting effect it can guide our mood and enhance our lives in many different ways. Good lighting can strengthen and highlight the structural features of a building to provide romance and warmth to the environment where you spend your quite time. It contributed greatly to people's sense of well-being. Lighting can

make or break a space; it helps define how we experience space, not just how we enhance it. The use of lighting can be beneficial in many ways from creating relaxation in a spa for your customers to improve focus, attention and productivity in a work place. At Light Up Design, we fully understand the importance of good lighting design. We have established our own lighting design department to support the growing needs from our customers. Please do not hesitate to contact one of our staffs about our lighting design service.

Zinger Generation II

LIGHT UP in collaboration with **COLORS®**

Brings More Freedom Design

Base on modular design and easy installation methods, Zinger Generation II has broken through the restrict of traditional lighting system, satisfy the imagination of designers, everyone is able to create the lighting space by his own ideas and individual application, fully present the combination of human being's characteristics and product's features. Let everyone enjoys the freedom of designing.

Brings More Easy Installation

Zinger Generation II brings amazing revolution of installation by keeping adopt the new technology. Compares to similar products from other place, Zinger Generation II significantly increases the efficiency of the installation by saving 40% time during the process of installation. The users will be able to finish his own design freely in a very short time by using Zinger Generation II

LINER LIGHTING SYSTEM

Let us proudly introduce our 2016 IF Design Award winning Zinger Generation II. Look for IF Design Award logo on several new models that recived this award. Zinger Generation II is a revolution of the design and installation. Modularity technology brings us the free extending connection, efficiency installation and uncomplicated appearance.

Brings Various Of Application

Standing out from the common led lights like led strip, led tube, Zinger Generation II combines with aluminum profile and led light source perfectly, various connectors offer more adaptability for different application field, different space construction, and different kind of decoration material.

Brings More Fashionable Geometry Style

Unlike the complex, luxurious European lighting style, Zinger Generation II adopts modern linear light, divides space into diverse of simplicity geometry, overturned the complex traditional lighting style, creates the new territory of fresh, elegant, fashion, becomes the most favorite designing style and sought after by large group and people.

Zinger Generation II

Innovative magnet end cap, easy intallation without screws;
Multi-corner connectors are available: 180 ° straight, L-type, T-type, X-type;
Various of customized services: customized color, size, material and so on.
The size of profile and cover are exactly the same, no need space for end cap;
